

FCOG Circuit Planning & Engineering Program

The Program is back again for 2021-22

The Circuit Planner and Engineer Program is a free technical assistance program for the 13 small cities in Fresno County to help with smaller transportation and smart-growth related projects and tasks that support the Regional Transportation Plan/Sustainable Communities Strategy or assist with other various roadblocks in delivery of projects. Projects may include planning studies, project deliveries, grant applications, environmental documents, and engineering services. Other examples include:

Identifying outdated City Zoning Ordinances using the Zoning Code Assessment Tool

<https://tinyurl.com/p3k5pbws>

Assistance in creating overlay zones

Active Transportation Counts

Grant writing for additional funding for infrastructure or housing

Updating or Drafting Right-sizing Parking Standards in compliance with AB 1401, EV Parking Standards

Assistance with outreach related to transportation and land use projects
